WE KNOW THE WORLD

MEMBERSHIP

24 hours a day, 7 days a week, 52 weeks a year your Concierge Manager is available to you, offering you global insights and unlocking exclusive access internationally. The Concierge Manager will document all of your preferences and requests, allowing them to prepare for your future requests as well as make exceptional recommendations which are certain to delight you.

Remarkable Moments Created by Escapes Concierge Managers:

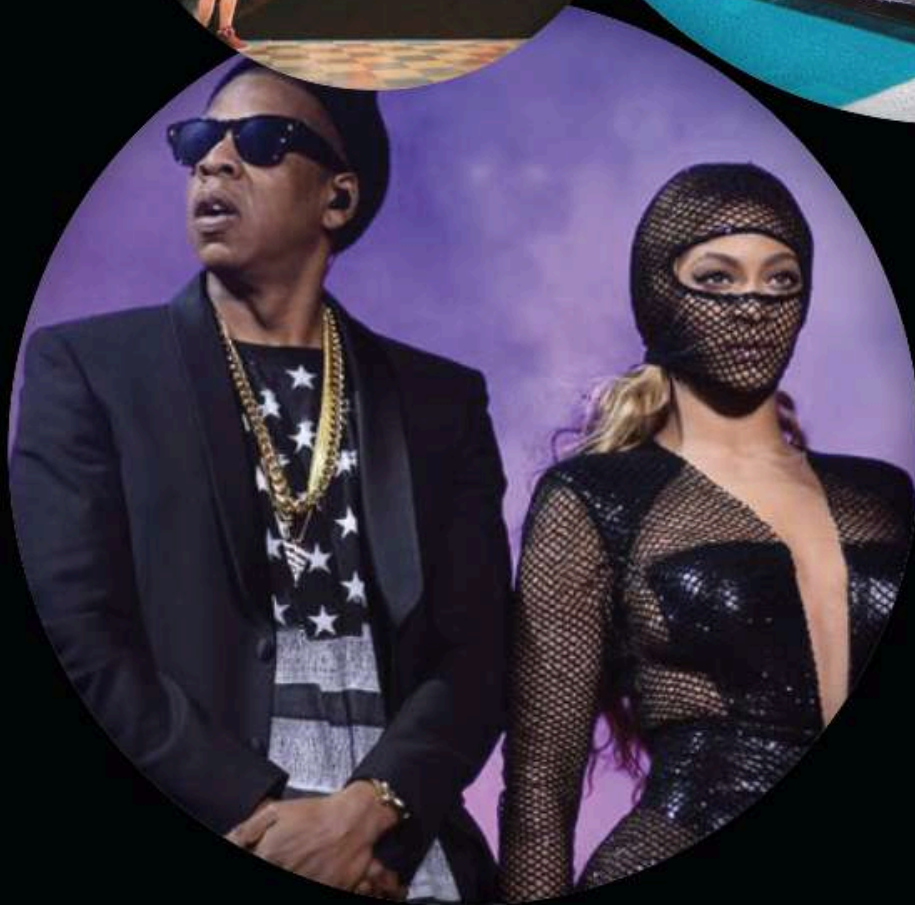

- A Member requested a consultation with a world renowned facialist. The Concierge Manager arranged the consultation within an hour of the request when there is usually a long waiting list.
- A Member forgot a special charger and the hotel did not have one on hand, so the Concierge Manager flew one to the Member vacationing in the Maldives.
- A Member requested a special gift for his wife during their honeymoon. The Concierge Manager arranged for a small piece of art to be delivered to the member's wife each day of their honeymoon. At the end of the trip the pieces could all be joined together to form one large piece of art, where each individual piece represented a separate day of the trip.
- A Member visiting Thailand was seeking an opportunity to give back to the community. The Concierge Manager organized a visit to a local orphanage in Chiang Mai where the Escapes Member could learn to cook a traditional Thai meal and then use their new found skill to cook lunch for the fifty children of the orphanage. Afterwards, the utensils used to create the meals were donated to the orphanage to be used to cook future meals for the children.
